

5th edition
30 September-3 October 2024
Nantes, France

SAVE THE DATE

We are pleased to announce the **5th Infrastar Training School on Fatigue and Reliability Analysis of Structures - Training for Assessment of Risk** to be held in Nantes, France, from **30 September-3 October 2024**.

The courses will provide multi-disciplinary and intersectoral basic concepts in three core fields, ranging from the design to the dismantling of the structures (bridges and wind turbines):

1. Monitoring and auscultation.
2. Structural and action models.
3. Reliability, risk and decision analyses.

A participant who successfully has taken part in the Infrastar training school will be able to understand:

1. How to smarten the structures and its benefits.
2. How to model structural and material behaviours under loading.
3. How to develop, perform and assess structural risks and the value of structural information.

Who should attend?

The Infrastar training school aims to provide lectures and hands-on trainings to Master and PhD students, early-stage researchers, young professionals on all aspects of asset management of civil infrastructures with respect to fatigue of materials. The participants will get additional knowledge about their own field but also about what is performed beforehand and afterwards.

Do not miss the opportunity to meet and discuss with experts: **Dr Odile Abraham** (Université Gustave Eiffel, France), **Dr Mohamed Belmokhtar** (Universite Gustave Eiffel), **Dr Joan Ramon Casas** (Universitat Politecnica di Catalunya), **Dr Inka Mueller** (Bochum University of Applied Sciences), **Dr Boumediene Nedjar** (Université d'Evry, France), **Dr Franziska Schmidt** (Université Gustave Eiffel, France), **Prof. Parisa Shokouhi** (Pennstate University, USA), **Prof. John Dalsgaard Sørensen** (AAU, Denmark), **Prof. Sebastian Thöns** (Lund University, Sweden),

Stay tuned and visit the [website](#).

Feel free to widely forward this email to the persons who might be interested. Apologies in case of cross-posting.

For additional information, please contact infrastar@univ-eiffel.fr

We look forward to welcoming you.

The organising committee,
Dr Odile Abraham, Dr Franziska Schmidt, Dr Fatima Fneich, Prof. Frédéric Grondin
